

MY COOL WORLD

GLOBAL LESSONS AND CRAFTS FOR CURIOUS KIDS

MY COOL WORLD ART CLASSES AND CAMPS

Learning about the world through art inspires curiosity, open-mindedness, and appreciation for other cultures. Students will be introduced to a combination of technique and process through drawing, painting, collage, clay, and other media as they create authentic art from around the world - authentic wearable Mexican sombreros, make Aboriginal Australian boomerangs and didgeridoos, or create a painted paper African lion while embarking on a Big Five African safari adventure, and much more!

Each lesson will feature new cultural art projects, and take-home booklets allow for learning to be shared at home with family.

Join us as we create beautiful art, meet new friends, and have fun learning about our cool world.
